APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.47 cubic feet per second, but not to exceed 138.00 acre-feet annually, and not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before April 8, 1994

Proof of completion of work shall be filed before May 8, 1994

Application of water to beneficial use shall be filed on or before April 8, 1996

Proof of the application of water to beneficial use shall be filed on or before May 8, 1996

Map in support of proof of beneficial use shall be filed on or before May 8, 1996

Completion of work filed AUG 8 1994

Proof of beneficial use filed

ITEM NO. 12 - REMARKS

APPLICATION NO. _____

TOM AND MARIA LIOUBAS - APPLICANTS

This application is being filed in accordance with Administrative Order No. 955 to replace the water rights lost due to forfeiture of a portion of Permit No. 24689 (Certificate No. 8143), Permit No. 23471 (Certificate No. 7775) and Permit No. 19536 (Certificate No. 5994). Please refer to the enclosed copy of the letter dated October 6, 1992 and signed by Mr. Jonathan C. Palm, Chief of the Hearings and Adjudication Section.

Permit No. 24689 was certified for irrigation and domestic purposes for a total of 37.6 acres, 2.0 cubic feet per second and a duty of 188.0 acre feet annually within the SE1/4 SE1/4 of Section 12 T.21 S., R.53 E., MDM. Forfeiture proceedings removed 1.47 cubic feet per second and 138 acre feet annually from 27.6 acres within the place of use. This rate of flow and duty are based the ratio of active water rights remaining and the original certificate under Permit No. 24689.

Maps filed under Permit No.s 24689, 23471 and 19536 are referenced to support this application. These maps illustrate the point of diversion and place of use proposed under this application.

Please send copies of all correspondence to:

Mr. George N. Benesch
Post Office Box 3197
Reno, Nevada 89505

(PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued consistent with the State Engineer's Order No. 955, dated October 26, 1987.

This permit is issued for the irrigation of 27.6 acres of land within the prescribed place of use previously irrigated under Permit 24689, Certificate 8143 declared forfeited by the State Engineer's Ruling No. 3795, dated April 15, 1991.
